LRA Item 6.1: Adoption of a Resolution [No. 2017-002] to Authorize the City Manager to Execute an Interim Lease No. DACA05-1-16-516 between the Secretary of the Army and the City of Riverbank – It is recommended that the Local Redevelopment Authority (“LRA”) Board of Directors (“Board”) authorize the City Manager to finalize and execute an Interim Lease of the former Riverbank Army Ammunition Plant between the Secretary of the Army and the City of Riverbank once an executable document is received.

LRA Executive Director Debbie Olson presented the staff report.

The LRA Board and Staff discussed the item.

LRA Attorney Doug White stated, for the record, that although the lease amendment adds assessment language in it, it is the City's and the LRA's position that nothing has changed from the way it was before. They've [U.S. Army] added language that was required by the Army just to adopt their new form and new issues, but there is nothing as it relates to our position, as it relates to the Fire District, whether or not there is any obligation to pay any assessments. The new language is a restatement of how it has always existed; it is just written differently.

ACTION: *By motion moved and seconded (Barber-Martinez / Jones Cruz / 5-0) to adopt Resolution No. 2017-002 authorizing the City Manager to Execute an Interim Lease No. DACA05-1-16-516 between the Secretary of the Army and the City of Riverbank, on the condition that all exhibits are acceptable upon execution, as presented.*

RIVERBANK CITY COUNCIL AGENDA ITEM NO. 3.C

SECTION 3: CONSENT CALENDAR

Meeting Date:	March 28, 2017
Subject:	A Resolution to Authorize the Expenditure of \$2,400 from the Enterprise Fund for the Purchase of a Key Log for the Riverbank Community Pool
From:	Sean Scully, City Manager
Submitted by:	Sue Fitzpatrick, Director of Parks and Recreation

RECOMMENDATION

It is recommended that the City Council review the request and consider approval of the purchase of a Key Log for the Riverbank Pool.

SUMMARY:

The Parks and Recreation Department is requesting approval for the purchase of a key log for the Riverbank Community Pool. Key Log Rolling offers an abundance of programming possibilities for the pool from youth programs, Health & Fitness Benefits to Challenges and Competitions.

BACKGROUND:

The Riverbank Swim Team has done very well over the past few years with over 70 participants in the program. This program is operated under the enterprise fund. After all expenses are paid, including reimbursement to the General Fund for lights and a portion of the heating and chemicals, our revenue for this program has exceeded expenses by an average of \$1,200 per year. The Parks and Recreation staff are requesting using these excess funds to purchase the Key Log. A photo of the Key Log is attached as Exhibit A.

FINANCIAL IMPACT:

The cost of the Key Log is \$2,400.

RIVERBANK CITY COUNCIL AGENDA ITEM NO. 5.1

SECTION 5: PUBLIC HEARING

Meeting Date:	March 28, 2017
Subject:	Conduct the First Reading by Title Only and Introduction of a Proposed Ordinance Amending the Riverbank Municipal Code by Repealing in its Entirety Chapter 96: Trees of Title IX: General Regulations and Substituting it with a New Chapter 96: Trees
From:	Sean Scully, City Manager
Submitted by:	John B. Anderson, Consulting Planner

RECOMMENDATION

It is recommended that the City Council conduct the public hearing for the first reading and introduction by title only of the proposed ordinance to consider its approval as presented, which will initiate the scheduling of the ordinance on April 25, 2017, for its second reading by title only, to consider its adoption.

SUMMARY

The proposed Ordinance completely replaces Chapter 96: Trees with a new Chapter 96: Trees that provides additional clarification on regulations related to planting and removing trees, hazards, permits, private tree maintenance, abusing trees and mutilating trees. This Ordinance is City-wide.

BACKGROUND

The existing Chapter 96: Trees was adopted in 1967 and has been amended a number of times, with the most recent amendment in 1985. The existing street tree ordinance regulates the planting and removal of trees within the City, both existing and in new subdivisions/projects.

ANALYSIS

The purpose of the proposed Ordinance is to regulate "Street Trees" within the City. Street Trees means all trees planted or growing within public rights-of-way, public easements, streets, parking strips, roads and ways within the City. The locations herein referred to shall be known as "street tree areas."

In summary, the proposed Ordinance provides the following regulations as it relates to street trees:

- Requires a permit to be obtained from the Public Works Department to remove, damage, prune, or encroached upon any street tree.
- Authorizes the City Manager to issue to any person doing business as a public utility a permit which shall authorize the cutting or removal of trees necessary for the safety and property maintenance of said utilities service.
- Prohibits the abuse, destruction or mutilation of any street tree.
- Requires a permit to be obtained from the Public Works Department when the erection, repair, alteration or removal of any building, house or structure necessitates the trimming, pruning, or removal of any street tree.
- No person shall allow or maintain any tree on private property in such a way that creates a hazard to pedestrian or vehicular traffic by obstructing vision or impairing necessary clearance, or other public property.
- Requires new subdivision projects to submit a street tree plan for review.
- Provides procedures for amending the variety of approved trees.

ENVIRONMENTAL DETERMINATION

Staff has determined that the proposed Ordinance is exempt from the California Environmental Quality Act (CEQA) Section 15061 (3), under the General Rule that CEQA only applies to projects which have potential for causing a significant effect on the environment.

STRATEGIC PLAN

The City's Strategic Planning Session is a plan and set of goals that the City will work towards for the next three years. This item works toward the ongoing maintenance of City systems as well as enhancement of public safety both of which are strategic goals.

FINANCIAL IMPACT

No additional expenditures are anticipated.

PUBLIC NOTICE

The City Council hearing notice was published in the *Riverbank News* on March 15, 2017 and posted at City Hall North and at the Riverbank Community Center on March 15, 2017.

- 96.18 Appeal from decision.**
- 96.19 Penalty for violations; civil action.**

96.01 Title.

This chapter shall be known and may be cited as the “Street Tree Ordinance of the City of Riverbank.”

96.02 Definitions.

For the purposes of this chapter the following terms, phrases, and words shall have the meaning given herein:

A. “Approved trees” means trees planted and growing in accordance with the street tree plan, both as to variety and location. All other street trees shall be known as “nonconforming trees.”

D. “Street trees” means all trees planted or growing within public rights-of-way, public easements, streets, parking strips, roads and ways within the City. The locations herein referred to shall be known as “street tree areas.”

96.03 Street tree plan.

The Development Services Department may prepare a street tree plan specifying a list of approved street trees, a uniform method of street tree planning, and designating certain streets or blocks of certain specimens of trees, plants or shrubs. The street tree plan shall subsequently be reviewed by the Planning Commission.

The plan shall be submitted to the Planning Commission and after adoption of the plan, as submitted or modified, in accordance with law it shall become the street tree plan of the city.

96.04 Plan administration.

The City Manager shall have the authority and powers to administer the street tree

program in accordance with the provisions of this Chapter.

96.05 Authority of City Manager.

The City Manager shall have the authority to order any work to prune, trim, clip, spray, maintain and care for street trees, or private trees to the extent that they overhang or project within public rights-of-way, or public roads of the city, as needed, to remove or require the removal by the owner of the adjoining property of diseased or dead trees, and encourage planting of approved trees throughout the city. The City Manager shall also have the authority to deviate from the designated tree for each block if circumstances warrant. Street tree pruning and tree removals shall be done in accordance with the street tree policy approved by the Planning Commission.

96.06 Planting generally.

A. Upon the adoption of a street tree plan, all street trees shall hereafter be planted in accordance therewith and the provisions of this chapter. At the property owner's request and cost, the City will remove and replace existing, non-conforming street trees with an approved tree.

B. Each interior residential lot shall have at least one approved street tree. Each corner residential lot shall have at least two approved street trees. The City Manager may, in his or her discretion, approve a greater or lesser number of trees per lot, upon a review of the circumstances.

96.07 Permits required.

A. It is unlawful for any person to remove, damage, prune, or encroach upon, or cause to be removed, damaged, pruned, or encroached upon any street tree without first having obtained a permit from the Public Works Department. Said permit shall be issued only for work to be done in compliance with the street tree plan and this chapter. The City Council may establish and set from time to time a fee for such permits. All work done pursuant to a permit shall be completed under the supervision of the Public Works Department. Whenever any street tree, whether approved or nonconforming, is removed or needs replacing, it must be replaced with a tree approved for that specific street tree area in accordance with the street tree plan and the provisions of this Chapter.

B. Notwithstanding the foregoing, the City Manager shall issue to any person doing

business as a public utility, subject to the jurisdiction of the California Public Utilities Commission and holding a valid franchise, a permit which shall authorize the cutting or removal of trees necessary for the safety and proper maintenance of said utilities service pursuant to the orders, rules and regulations of said California Public Utilities Commission. Such a permit, unless renewed, shall expire at the end of one year after the date of issuance, or it may be revoked for good cause. Even with a valid permit, utilities are prohibited from topping street trees. Directional pruning or other ISA-approved methods are allowed. The City's pruning guidelines are contained in the City's street tree pruning policy.

96.08 Abusing or mutilating trees prohibited.

No person shall abuse, destroy or mutilate any street tree. Topping, severe pruning, or other inappropriate pruning techniques shall be considered mutilation. Directional pruning or other ISA-approved methods of pruning are allowed and do not constitute mutilation. Any such harm to street trees constitutes an immediate hazard to the public health, safety and welfare of the community and a public nuisance. Upon notice by the City, any person who violates the provisions of this section to the extent that the street tree must be removed or replaced, shall remove and replace the tree to the specifications of the street tree plan and the provisions of this Chapter at their own expense. At the owner's request and cost, the City may provide a tree to the property owner who shall be responsible for all planting and associated work.

96.09 Open ground maintenance.

No person shall place or maintain any stone, cement, or other substance as to impede the free access of water or air to the roots of any street tree; not less than twelve square feet of open ground shall be left and maintained around every street tree.

96.10 Interference prohibited.

No person shall in any way interfere with the City Manager, other city employees, or their contractors while they are lawfully engaged in planting, mulching, pruning, trimming, spraying, treating or removing any street tree, or in removing any stone, cement or other substance from the trunk of any street tree or the surrounding open ground area.

96.11 Building construction necessitating altering or removing tree; permit and deposit required.

A written permit issued by the Public Works Department shall be obtained when the

erection, repair, alteration or removal of any building, house or structure necessitates the trimming, pruning, or removal of any street tree. The City Council shall set from time to time by resolution a permit fee for such permits. As a condition to a permit granted pursuant to this section, the applicant shall deposit a security with the City, in an amount to be determined by the City Manager, sufficient to defray the cost of replacing the removed tree with an approved tree in conformance with the street tree plan.

96.12 Private tree maintenance; failure a nuisance; notice.

No person shall allow or maintain any tree on private property in such a way that creates a hazard to pedestrian or vehicular traffic by obstructing vision or impairing necessary clearance, or in any manner endangering the security or usefulness of any public street, sewer, sidewalk, or other public property. Any such private tree allowed or maintained contrary to the provisions of this section is a public nuisance; upon a determination by the City Manager that such private tree constitutes a nuisance, he shall give written notice to the owner of the property upon which said nuisance exists to trim, remove, or otherwise control such tree in such a manner as will abate such nuisance. Failure to comply with such written notice within ten days thereafter is a violation of this section. Such written notice may be given by a personal service of a copy thereof, or by placing a copy of the notice in the United States mail, postage prepaid, addressed to the owner of the property as shown by the last assessment roll of the city.

96.13 Planting in new subdivisions; plan and deposit submission.

A. With or before the filing of any final map of any new subdivision, the subdivider shall either file with the Development Services Department a proposed plan of street tree planting showing the location and variety of trees proposed to be planted in the subdivision, or shall request the Planning Commission to designate the type and location of street trees for such subdivision before approval of the final subdivision map.

B. Subdividers are required to deposit a security, to be determined by the City Manager, sufficient to cover the cost of the number and variety of trees needed as determined by the Development Services Department for planting street trees within their subdivisions. Prior to the approval of the final subdivision map by the City Council, the deposit shall have been either paid or guaranteed by the subdividers bond.

96.14 Emergency situations; public utilities may trim without permit.

Public utilities providing gas, water, electric, telephone or telegraph service to residents of the city may, in those emergency cases where street trees are interrupting the service, trim or remove branches of the trees to the extent necessary to restore services without securing a permit. However, once the emergency situation has been corrected, the public utility must finish the trimming through the use of directional pruning, v-pruning or other approved methods to leave the tree with a correct structure and a balanced shape.

96.15 Changing the variety of approved trees; procedure.

A. In the event that any approved trees become subject to pests or otherwise unsuitable as street trees, the owners of not less than fifty percent of the front footage on any block and not less than fifty percent of the frontage of the block facing the same on the opposite side of the street may apply to the Planning Commission for change in the variety of approved trees on such block. "Block" means the block fronting on any street between cross streets. The Planning Commission shall schedule and conduct a hearing upon receipt of such notice. At least ten days prior to the hearing, the City Clerk shall provide written notice of the hearing to the owners of lands on the block to be affected by such proposed change by mail to the addresses shown on the current assessment roll and may publish a notice of the hearing at least once in a newspaper published in the city. At the hearing the Planning Commission shall hear the evidence presented and shall take into consideration the effect of the change on the general tree planting program of the city. The Planning Commission shall issue a written decision, which the City Clerk shall be mail to all affected property owners as defined herein.

B. Any person dissatisfied with the decision of the Planning Commission may appeal the same to the City Council within ten days after notice of such decision. The City Council shall consider such appeal at its next regular meeting or at such time as it may be continued, and its decision shall be final.

96.15 Liability of property owner.

Nothing contained in this chapter shall be deemed to impose any liability upon the city, its officers or employees, nor to relieve the owner of any private property from the duty to keep any tree, shrub, or plant upon any street tree area on his property or under his control in such condition as to prevent it from constituting a hazard or an impediment to travel or vision upon any street, park, pleasure ground, boulevard, alley or public place within the city.

96.16 Responsibility of property owner or occupant.

The property owner or occupant, as the case may be, shall be responsible for maintaining and otherwise watering street trees located in rights-of-way or easements abutting the property.

96.18 Appeal from decision.

Notwithstanding any other provisions of this Chapter, appeals from any direction or order given or made under the provisions of this Chapter may follow the procedures set forth in this code for a hearing by a Hearing Officer or the Appeals Board.

96.19 Penalty for violations.

Any person violating any of the provisions of this chapter is guilty of an infraction punishable by a warning on the first offense, a fine of one hundred dollars (\$100) on the second offense, and a fine of two hundred and fifty dollars (\$250) on the third offense and a fine of five hundred dollars (\$500) on the fourth offense and so forth.

The city may enforce any of the provisions of this chapter through nuisance abatement or any other administrative remedies available under this code.

SECTION 2: This Ordinance shall become effective thirty (30) days from and after its final passage and adoption, provided it is published in a newspaper of general circulation at least fifteen (15) days prior to its effective date or a summary of the Ordinance is published in a newspaper of general circulation at least five (5) days prior to adoption and again at least fifteen (15) days prior to its effective date.

The foregoing ordinance was introduced at a regular meeting of the City Council of the City of Riverbank held on _____, 2017. Said ordinance was given a second reading at a regular meeting of said Council on _____, 2017, and Councilmember _____ seconded by Councilmember _____, moved the adoption of said ordinance, and upon roll call was carried by the following vote:

RIVERBANK CITY COUNCIL AGENDA ITEM NO. 6.1

SECTION 6: NEW BUSINESS

Meeting Date:	March 28, 2017
Subject:	Approval of Six Month Strategic Objectives (March 20th – September 15 th 2017)
From:	Sean Scully, City Manager

RECOMMENDATION

It is recommended that the City Council approve the Six Month Strategic Objectives (Exhibit A) that were developed during the Strategic Planning Session held on March 20, 2017.

SUMMARY

On March 20th the City Council held the first of its 2017 biannual Strategic Planning Sessions. The sessions are intended to allow the Council and staff the opportunity to discuss and prioritize projects/objectives for the upcoming year. The planning process includes a SWOT analysis, team building and brain storming session on potential objectives that specifically serve the three year goals identified by the City Council.

City Council and staff developed, amended, and restructured the objective list which will serve as the blue print for staff work over the next 6 month period. Each objective has been assigned to a staff member or a group of staff members, and also includes identified timetables for completion.

Staff will provide City Council and the community with ongoing updates of progress on the strategic objectives throughout the next 6 month period. If substantive amendments or additions are needed, staff will present them for City Council's consideration.

BACKGROUND

The City Council has been committed to the strategic planning process for the past 6 years as a method to guide and shape the workflow of the organization. The strategic planning process also allows for the resources of the organization to be used in a way that specifically serves the 3 year (2016-2019) goals. Those goals are as follows:

Achieve and maintain financial stability and sustainability

Attract, develop and retain quality staff

Maintain and improve the City's infrastructure and service delivery systems

Expand economic development opportunities for businesses

Enhance public safety

Each of the strategic objectives referenced in Exhibit A are designed to specifically work toward achievement of the three year goals.

FINANCIAL IMPACT

Since all of the strategic objectives will need resources (in some form) in order to achieve completion, financial impact is expected. However, staff will work with City Council through the budget process to make sure they are responsibly budgeted for, and propose amendments to the objectives if an objective is found to be financially unfeasible.

RIVERBANK CITY COUNCIL AGENDA ITEM NO. 6.2

SECTION 6: NEW BUSINESS

Meeting Date:	March 28, 2017
Subject:	Recommend the City Council Support the Approval of the Five (5) City of Riverbank Congestion Mitigation and Air Quality (CMAQ) Program Projects for Fiscal Year 2018/2019 and Fiscal Year 2019/2020 recommended by the Stanislaus Council of Governments (StanCOG) and approved by the StanCOG Policy Board
From:	Sean Scully, City Manager
Submitted by:	Kathleen Cleek, Development Services Administration Manager

RECOMMENDATION

It is recommended that the City Council support the approval of the five (5) City of Riverbank Congestion Mitigation and Air Quality (CMAQ) Program projects for fiscal year 2018/2019 and fiscal year 2019/2020 recommended by StanCOG and approved by the StanCOG Policy Board.

SUMMARY

On February 17, 2016 StanCOG Policy Board adopted Resolution 15-21 approving the distribution methodology of CMAQ funding for fiscal year 2018/19 and 2019/20. Small/medium agencies (Hughson, Newman, Oakdale, Patterson, Riverbank and Waterford) would competitively receive 20% of the CMAQ balance after rideshare with a \$400,000 project cap). Large agencies & transit (Ceres, Modesto, Turlock and Stanislaus County and Transit Agencies) would competitively receive 80% of the CMAQ balance after rideshare.

On August 30, 2016 the City submitted 3 project applications for CMAQ funding. The CMAQ Evaluation Committee recommended all 3 of the City of Riverbank's projects be funded totaling \$947,150. Three other agencies Newman, Hughson and Oakdale each submitted one application that were also funded totaling \$763,739. This left a balance of \$1,200,000 still available. At the November 16, 2016 Policy Board meeting the board instructed StanCOG staff to continue to solicit project applications for the remaining \$1.2 million available for distribution through the small and medium sized agency component of the CMAQ program to fully utilize available funding.

At that time the City submitted two (2) additional CMAQ applications, which the CMAQ Evaluation Committee recommended be funded totaling \$589,885. The other two (2) agencies Patterson and Newman submitted applications for a total of \$555,400. All recommended CMAQ project applications were approved by the Policy Board at the March 15, 2016 meeting. Out of the \$2,856,174 recommended projects for small/medium agencies, Riverbank received \$1,537,035 (54%) of the funds for the five (5) competitive projects the City submitted for consideration.

1) Traffic Flow Improvements at the intersection of First & Patterson	\$280,250
2) Pedestrian Access (sidewalk infill) east and west sides of Roselle Avenue between Crawford and Rosebrook Drive over MID canal	\$399,850
3) Class II Bicycle Striping along Roselle Avenue Patterson to Crawford	\$267,050
4) Pedestrian Access (sidewalk/trail) north side of Patterson Road Between Third Street to Terminal Avenue	\$399,275
5) Alternative Fuel Vehicles – 2 flat beds, 1 truck, and 1 cargo van	\$190,610
TOTAL	\$1,537,035

BACKGROUND

The purpose of the CMAQ Program is to fund transportation projects or programs that will contribute to the attainment or maintenance of the National Ambient Air Quality Standards (NAAQS) for ozone, carbon monoxide, and particulate matter (PM10 and PM2.5). All projects eligible for CMAQ funds must originate from the Regional Transportation Plan (RTP) and also be identified in the Federal Transportation Improvement Program (FTIP).

To be eligible for CMAQ funding, each project must meet three basic criteria: (1) be a transportation project, (2) generate emissions reductions, and (3) be located in or benefit a nonattainment or maintenance area. Additionally, projects must meet the conformity provisions in 176(c) of the Clean Air Act (CAA) and the regulations governing transportation conformity in Title 40 of the Code of Federal Regulations (40 CFR Parts 51 and 93).

STRATEGIC PLAN

- These projects are directly related to two of the City's Strategic Plan Three-Year Goals:

Maintain and Improve the City's Infrastructure and Service Delivery Systems; and Enhance Public Safety.

The City's Strategic Plan can be found at www.riverbank.org.

FINANCIAL IMPACT

No financial impact to the City's general fund. The projects are funded through the Congestion Mitigation and Air Quality (CMAQ) program.
