3. CONSENT CALENDAR There are no items to consider.

4. BUSINESS

City Manager Jill Anderson explained the State's water restriction orders, the City's requirement to comply, and announced that a Spanish speaking appellant would be heard first.

Deputy City Attorney Robin Baral explained the conduct of the appeals process and in regards to a conflict of interest, recommended Board Members recuse him/herself from the decision process if he/she was acquainted or related to an appellant.

Item 4.1 Administrative Citation Appeal Hearings for Water Use Violations - It is recommended that the Appeals Board uphold Administrative Citation fines for water use violations issued in accordance with Chapter 52: Water, Section 52.34 Restricted Water Use, and City Council Resolution No. 2015-096.

Public Works Superintendent Michael Riddell presented the staff report. Water Coordinator Sherry Fenn was also present.

Each appellant presented his/her oral or document testimony and thereafter responded to questions from the Board. City staff Superintendent Riddell and Coordinator Fenn presented their oral and documented testimony for each citation (a copy of the documents were provided to each appellant), and thereafter responded to questions from the Board. A brief rebuttal period occurred and after consideration, the Appeals Board made its final decision to uphold, modify, or dismiss the citation fines as follows:

RIVERBANK APPEALS BOARD AGENDA ITEM NO. 4.1

SECTION 4: BUSINESS

Meeting Date:	May 17, 2016
Subject:	Administrative Citation Appeal Hearings for Water Use Violations
From:	Jill Anderson, City Manager
Submitted by:	Michael Riddell, Public Works Superintendent Annabelle Aguilar, CMC, City Clerk/Sr. Management Analyst

RECOMMENDATION

It is recommended that the Appeals Board uphold Administrative Citation fines for water use violations issued in accordance with Chapter 52: Water, Section 52.34 Restricted Water Use, and City Council Resolution No. 2015-096 covering the period from December 1, 2015 through May 1, 2016.

INTRODUCTION

The culmination of Governor Brown's Proclamation and Executive Orders calling for a state of emergency due to severe drought conditions, and the State Water Resources Control Board ("Water Board") imposing restrictions to achieve a statewide 25% reduction in potable urban water use through February 28, 2016; along with the Water Board's directives requiring the City of Riverbank ("City") to achieve conservation standards that reduced water use by 32%, demanded action by the City to implement strong and supportive water use restriction policies that would achieve the requirements of all orders issued, and provide the City with the enforcement mechanisms to comply.

Administrative Citations

Administrative citations for violation of the City's water use policy covering the period from December 1, 2015 through April 30, 2016 (Resolution No. 2015-095) were issued to the following list of individuals. City policy provides for the opportunity to contest an issued citation before an Appeals Board by submitting a completed Citation Appeals Request Form to the City Clerk. The listed individuals have submitted a request form and are scheduled to have their hearing this evening during a public forum of the Appeals Board.

Notice of Scheduled Hearings

In accordance to policy, public notices of the hearings were mailed prior to the scheduled date, to each individual listed via email and also via U.S. Postal Service.

BACKGROUND

On January 17, 2014, Governor Brown issued a Proclamation declaring a State of Emergency due to severe drought conditions calling for the reduction of water use by 20%. On April 25, 2014, Governor Brown issued a proclamation extending the State of Emergency due to the ongoing drought conditions in California, and to strengthen the measures the state may take to manage water effectively. On April 1, 2015, Governor Brown, issued Executive Order B-29-15, mandating that the State Water Resources Control Board ("Water Board") impose restrictions to achieve a statewide 25% reduction in potable urban water use through February 28, 2016 in response to the continuing drought conditions.

The Water Board adopted regulations under the Executive Order B-29-15 mandate on May 5, 2015, requiring local urban water suppliers such as the City of Riverbank to achieve conservation standards based on conservation tiers. The City's assigned tier requires it to reduce water use by 32% as compared to the same month's water production in the year 2013.

Water use in the City was reduced by 21% in June 2015, and 20% in July 2015; however, water use increased by 17% in August 2015, and then again reduced by 27.3% in September 2015 and 6.2% in October 2015. Unable to meet the required 32% water use reduction, the Water Board issued a Notice of Violation and Information Order on August 7, 2015, to the City in order to determine what actions the City had taken to comply with the mandated water conservation standard. On October 21, 2015, City staff met with the Water Board to further discuss the City's water conservation program and areas of potential water use savings.

Current Water Restrictions

Due to the difficulty in meeting the required 32% water use reduction, the City was obligated to make stronger modifications to its policies on outdoor water use, including penalties for noncompliance of those regulations. In accordance with the City's adopted Urban Water Management Plan the City Council adopted Resolution No. 2015-096 on November 24, 2015, implementing the following outdoor water use restrictions:

- 1) Use of Landscape Irrigation Systems (Sprinklers) would be prohibited from **December 1, 2015 to May 1, 2016**. Only hand watering will be allowed and a person must be present to control the use of water.
- 2) Dwellings or establishments with ***even-numbered*** street addresses shall water only on ***Tuesdays***. Only hand watering is allowed and a person must be present to control the use of water.
- 3) Dwellings or establishments with ***odd-numbered*** street addresses shall water only on ***Fridays***. Only hand watering is allowed and a person must be present to control the use of water.

- 4) No outdoor watering is allowed on days other than when it is expressly allowed.
- 5) No watering may occur for forty eight (48) hours after a rain event ends.
- 6) All fines are due 30 days from date of issuance of violation. If no payment is received, the fine will be added to the next utility bill.
 - (a) First violation – Change from a “warning” to a \$100 fine.
 - (b) Second violation – Change from a \$20 fine to a \$200 fine.
 - (c) Third violation – Change from a \$50 fine to a \$300 fine.
 - (d) Fourth violation – Change from a \$100 fine to \$400 fine.
 - (e) Fifth violation and each violation thereafter – Change from a \$200 fine to a \$500 fine.
- 7) No outdoor water use will be allowed between 9:00 a.m. and 9:00 p.m.

Although these measures were immediately implemented, on December 17, 2015, the Water Board’s Office of Enforcement issued a Conservation Order directing the City of Riverbank to immediately take further action to meet the mandated water conservation target of 32% or be subject to a civil liability of up to \$500 per day for each day the violation continued.

Adopted Ordinance No. 2016-004

There are several factors that constitute the declaration of a water drought or water shortage that requires the City to implement water conservation regulations as expeditiously as changes occur. On March 8, 2016, City Council adopted Ordinance 2016-004 amending several Sections of the Riverbank Municipal Code, Chapter 52, Water, to update and establish water restrictions for outdoor water use, seasonal landscape irrigation schedules, prevent water waste, establish penalties for noncompliance of the regulations, and the ability to request an appeal hearing to settle administrative citations issued to violators. In addition, the Ordinance also provides the City Council with the flexibility to set water use restrictions by adoption of a resolution; thereby, promptly adapting the City’s regulations to the changing water conservation measures and mandates. The current Ordinance reads as follows:

The RMC, Title V: Public Works, Chapter 52: Water, Section 52.34 reads as follows:

§ 52.34 RESTRICTED WATER USE.

In addition to all other provisions and requirements of this chapter, the following additional rules and regulations for the use of water are hereby established. These provisions shall apply to all persons using water in the city regardless of whether any person using water shall have a contract for water service with the city.

(A) *Vehicle Washing.* The washing of commercial and noncommercial privately owned automobiles, trucks, trailers, motor homes, boats, buses, and other types of vehicles is restricted

to the use of a hand-held bucket and quick rinses using a hose with a quick-acting positive shut-off nozzle.

(B) *Washing Exterior Surfaces.* There shall be no washing of building exteriors, mobile home exteriors, sidewalks, patios, driveways, gutters or other exterior surfaces, unless permitted by the Public Works Director, or Superintendent, or his/her designee, and done with the use of a quick-acting positive shut-off nozzle on the hose.

(C) *Outdoor Water Use.* A drought, water shortage, or waste of water may require the city to implement regulations as expeditiously as such findings occur. The City Council by resolution shall establish water conservation regulations to address such findings, which may include but are not limited to water conservation regulations that are mandated by the state or federal government.

(D) *Violations.* It shall be unlawful for any customer or person to fail to comply with any of the provisions set forth by this section or by City Council resolution. The Enforcement Officer or designee may issue an administrative citation for failure to comply.

(E) *Penalties.* Failure to comply with any provision, requirement, rules or regulations under this chapter shall be unlawful and punishable as an infraction.

(1) In addition to the stated penalties, the city may pursue any available civil remedies and criminal penalties together with any and all costs incurred by the city as a result of violation of this section or any City Council resolution adopted pursuant to this section.

(2) At the discretion of the Enforcement Officer with the approval of the City Manager, an issued administrative citation for noncompliance of this section may be reduced to a formal written warning and the related citation fines waived or the citation may be cancelled after review of the findings. All results of a citation issued shall be entered into the record. Any further violation of the water conservation regulations provided in this section or adopted pursuant to this section shall result in the imposition of an administrative citation and its related penalties as set forth herein.

(3) Penalties for noncompliance with water conservation regulations provided in this section or adopted pursuant to this section shall be as follows and may be amended from time to time by City Council resolution:

- (a) The fine for the first violation is one hundred dollars (\$100).
- (b) The fine for the second violation is two hundred dollars (\$200).
- (c) The fine for the third violation is three hundred dollars (\$300).
- (d) The fine for the fourth violation is four hundred dollars (\$400).
- (e) The fine for the fifth violation and each subsequent violation thereafter is five hundred dollars (\$500).

(F) *Payment of Fines.* Fines shall be placed on the customer's water bill and paid in accordance with Section 52.64 of this chapter.

(G) *Citation Appeal Hearing.* Any customer or person receiving an administrative citation for noncompliance of this section may request an appeal hearing pursuant to the administrative remedies provided in Chapter 99 of the Riverbank Municipal Code. Any customer or person seeking an appeal hearing of an issued administrative citation for noncompliance of this section shall file an appeals request form within fifteen (15) days of the citation. Failure to timely file a request form shall waive the right to appeal the violation. At the end of the fifteen (15) day period, all fines incurred for noncompliance with this section shall be placed on the customer's water bill for payment.

The emphasis of the amendments made to the Riverbank Municipal Code were to clarify the aforementioned policies, implement conservation measures to meet state orders, and incorporate the ability to appeal an administrative citation.

RECOMMENDED ACTION

In support of Governor Brown's Proclamations and City Council's adopted Urban Water Management Plan, adopted Resolution No. 2016-096, and the Riverbank Municipal Code establishing the City's water use policy in response to the State Water Board's Conservation Orders, it is recommended:

1. that a public hearing be conducted to consider each individual Administrative Citation issued as listed; and
2. by a majority vote of the Board, find that each Administrative Citation issued were in accordance to policies and therefore are upheld.
