City Manager, Garcia provided flowers to Sue Fitzpatrick, Director of Parks and Recreation as a thank you from herself, City Staff and city council for her 24 years of service to the City of Riverbank and all the wonderful projects that she was able to bring to fruition. We wish her well on her retirement.

Vicki Holt, with Riverbank Library gave an update on all the classes and events being held at the library, which can be found on the Library website at stanislauslibrary.org and are provided thanks to the 1/8 of a cent tax.

Dr. Constantino Aguilar, Superintendent of Riverbank Unified School District would like to formerly introduce himself, came on board about 5 months ago. Commented on his goals, and core values, for our schools. Would like to invite all of City Council to attend the Riverbank unified School District and the University of California, Merced Automatic Admissions Program, that will be held at Fauria Gym at Riverbank High School on September 21st.

Dave Romano, Developer with Riverwalk Project gave an update from the development team. The Riverwalk project that is now in the planning process, it's in your General Plan that you adopted in 2009, when cities were thinking what areas do we grow and how do we grow, the city has prepared infrastructure master plans based on that general plan, how do we serve that area. McHenry Bridge has been widened, so there is good circulation there in that area. And while there were activities to plan this area 20 years ago, this is a different project. This is a project that has a mixture of land uses, will serve mixture of different economic and age groups. A project like this takes development over time, it doesn't occur overnight, will be developed in phases. All of the issues associated with this project will be analyzed in an Environmental Impact Report, you will have an opportunity to review that, and ultimately this council based on all the input that you get, will get an opportunity to act on this project. We hope affirmatively, but that's a decision

with you. Your staff has been wonderful, we appreciate working with them. We just wanted to come and give you a little update on the project and thank you for the consideration so far and your consideration in the future.

Jamie Aggers, Modesto Resident spoke in opposition of the Riverwalk Project.

David Anthony-Avila, Oakdale Resident commented on the Cheese and Wine Festival in reference to cost of the fencing and proposed business store fronts be used as fencing for the vendors, that will help with some of the cost.

Annabel Gammon, Riverbank Resident commented in response to Dave Romano's update from the development team of River Walk. First of all, we are all looking forward to reviewing the Draft EIR. The Riverwalk Project that is now in the planning process, it is in your general plan that you adopted in 2009, when cities were thinking what areas do we grow and how do we grow, the city has prepared infrastructure master plans based on that general plan, how do we serve that area.

Tim Mellencamp, Riverbank Resident commented on the signage out in front of a home on Patterson Road with inappropriate foul language. It is outside City Limits and might be county, but would like to know if there is any type of ordinance against this type of signage.

There being no further public comments, Mayor O'Brien closed the Public Comment period 7:15 P.M.

Item 11.1 **Resolution to Approve the McRoy Wilbur Communities Deferral of System Development Fees for the River Terrace Subdivision-** It is recommended that the City Council consider adopting a Resolution approving the deferral of the McRoy-Wilbur Communities System Development Fees assessed on the construction of dwelling units in the River Terrace subdivision from building permit issuance to final inspection.

Building and Planning Manager Kenney presented a comprehensive staff report and power point presentation on the deferral of the McRoy-Wilbur Communities System Development Fees for the River Terrace Subdivision.

City Council discussed the item with staff.

Cary Pope, original developer of the Ward Villas, now River Terrace commented on his appreciation of consideration of deferral of fees. We really wanted to stress the affordability of this project. Unfortunately, we have not been able to achieve that. As of today, interest rates are at a 23-year high. It does not bode well with the first-time home buyers.

David Anthony Avila, Oakdale Resident asked where do all those fees go? Do they actually pay for any of the hardware, does it go to water, paving, sidewalks, does any of that money go to those costs?

Building and Planning Manager Kenney clarified, yes all of these fees go to the system. Water goes to water, wastewater goes to wastewater they are not interchanged, unless there is some specific reason and the council agrees to move some of those funds. So, they go where they are supposed to go.
