

INFORMATION FOR FILING A COMPLETE APPLICATION FOR A CONDITIONAL USE PERMIT

Conditional uses are permitted uses and are appropriate in the zoning district only when all conditions are met. For example, a house of worship may be desirable in a residential area but controls over parking, circulation, setbacks, and landscaping may be needed to prevent them from adversely affecting surrounding residences. By classifying them as conditional uses, separate regulations can be imposed to mitigate the adverse impacts.

A use that would not be appropriate generally or without restriction throughout a zoning district but which, if controlled as to number, area, location, or relation to the neighborhood, would promote the public health, safety, morals, order, comfort, convenience, appearance, prosperity, or general welfare.
